

File Transfer for Certification Information for ECOS for Entities users

Authorized users can upload a file to obtain certification information. Users create a .csv or .txt file containing either TEA IDs or Social Security Numbers, and upload the file to retrieve certification information. This system can process up to 5,000 records at a time, but will be increased to 20,000 in August 2021.

To use this feature, the user must log into their TEAL account, then go to ECOS for Entities. On the left side

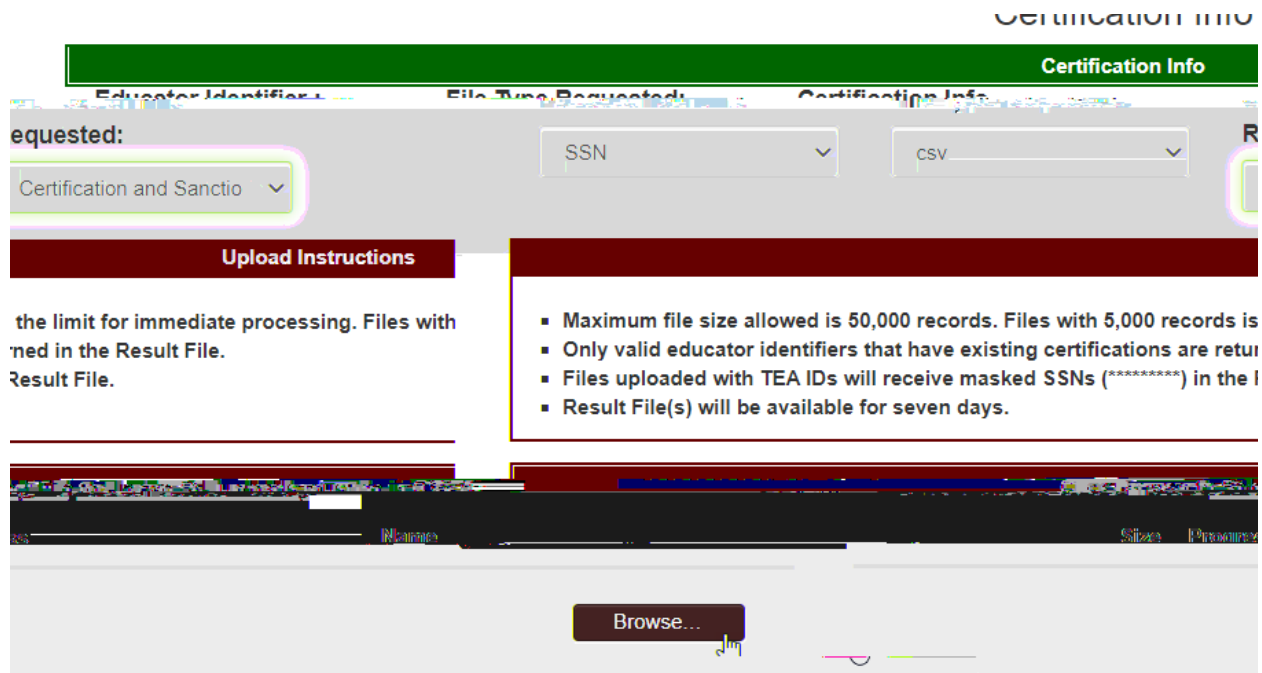

Select the file type you would like for your results.

Select "Certification and Sanction" for Certification Info Requested.

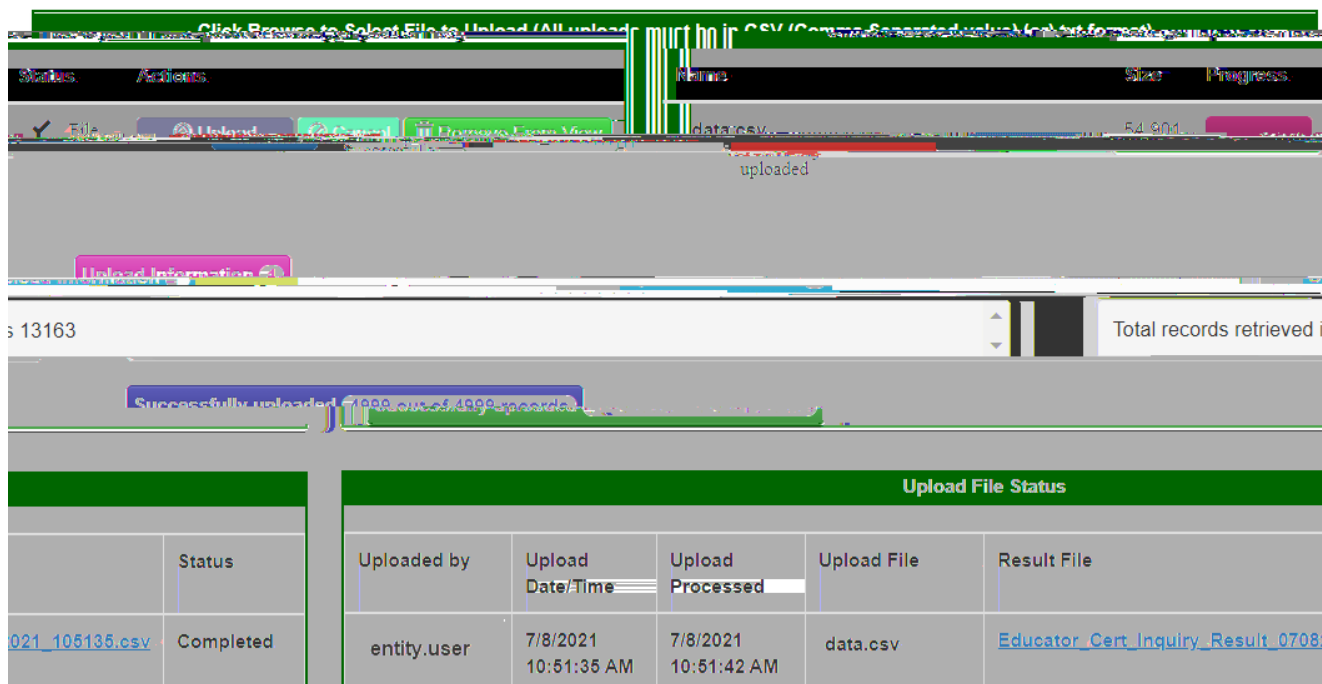

Browse for the file to upload.

Upload the file.

When successfully uploaded, retrieve your result file.

The results file currently contains 28 columns, but two new columns will be added on August 24, 2021, with a system update.

The two new columns (Teacher Designation, Designation Expiry Date) relate to teacher designations given under the [Teacher Incentive Allotment](#) program.
