

4. Dangerous Situation

Just after (time and day), a small fire was discovered in the (area) at (school name). All students and staff were safely evacuated from the campus. First responders arrived quickly to the campus to assess the situation. The fire was contained to (one bathroom, one closet, etc.). We applaud the quick actions of staff and students to get out of the building safely during this incident. Thank you.

(LEA) Families,

Early this morning we were made aware of a concerning statement made by a student circulating on social media. The (name of agency) Police Department immediately responded and located the student.

I want to thank our local law enforcement partners and the (LEA) Safety and Security department for the quick response to this situation. I am incredibly grateful to the students and families who reported seeing the comments on social media. We always encourage anyone with knowledge about threats, whether they are credible or not, to immediately inform campus administration or another trusted adult on campus.

I want to encourage you to please talk to your child about the serious nature of making threats because those words can lead to significant legal consequences. It is also important to remind students to report suspicious or concerning behavior rather than sharing information on social media.

Thank you for helping keep (LEA) safe, and for partnering with us in the education of our students.

ò. Report of a Weapon on Campus

(LEA) Families,

I believe it is important to inform you of situations on our campus, even if your child may not have been directly impacted. We received information this week that a student may be in possession of a weapon on campus.

School administrators, the school resource officer, and (name of agency) Police Department responded immediately and the situation has been fully investigated. No threat was made against the school or any

individual; however, we did discover through the investigation that the student had a toy gun and showed it to students on the bus.

I want to assure you, appropriate disciplinary consequences will apply, but federal law prohibits us from sharing any of that specific information. I am grateful to the students who reached out to a trusted adult to report this information.

(LEA) and our local law enforcement partners take very seriously the safety of our students.

. Threat via Voicemail

(LEA) Families,

We need to make you aware of a situation that has been investigated by both (LEA) and the (name of Agency) Police Department. Late this afternoon, our campus received a voice message making threatening statements, which was immediately reported to our campus School Resource Officer (SRO).

(Name of agency) Police Department has fully investigated the situation and determined there was no real threat to the campus. The (neighboring LEA name) received a similar call during the same time frame, and we are learning other schools in the
